MEDICAL REQUIREMENTS CHECKLIST FOR TRANSFER STUDENTS

The Illinois School Code requires all children entering Illinois schools to have a physical exam and certain immunizations prior to entering school in the fall. A dental exam and eye exam are also required. Please use this checklist to help answer questions and complete the necessary requirements for school attendance.

For transfer students from out of the State or out of the country, or from a federal Head Start program, a health form that is comparable to the Illinois requirements may be accepted only at the time of first entry into an Illinois school. (A statement by a physician or other health care provider indicating only that an examination was conducted is not acceptable.)

COMPLETED

PHYSICAL EXAM REQUIREMENTS

“Certificate of Child Health Examination” form (or similar form if student is out of state) must be completed and returned to school prior to first day of attendance.

Complete all information on top of the Physical form (name, address, birth date, and grade). Please put student’s name on both sides of form.

Parent/Guardian completes and signs the “Health History” portion of the form (top of back side of form).

IMMUNIZATIONS (front side of form). Include all immunizations child has had. The month, day, and year in which the immunizations were given must be noted.

DIABETES SCREENING is required. The doctor should identify if your child is at risk.

LEAD SCREEN RISK QUESTIONNAIRE All children 6 months through 6 years of age should be assessed for lead poisoning. A lead assessment is a **required** part of the physical exam for kindergarten entry.

PHYSICAL EXAMINATION (Bottom portion of back side of form) Physical must include: Height, Weight, Blood Pressure, BMI and a review of systems. Lab work is not required but strongly recommended.

Physical must be dated within 1 year of entering school and must be signed by the Physician.
