

LAST NEWSLETTER MAILING

Westfield Middle School will be moving to a on-line newsletter for the future. Circumstances with mailing compliance and new postal regulations with regard to bulk mailing have warranted this change during our school year.

With the on-line newsletters for February, April and June, parents will be able to view this important information on our Westfield website. Westfield will be save considerable money on postage and further our efforts in 'going green' by saving paper.

You will be able to access the "Green and Gold Gazette" link located on the Westfield website and view monthly and by-monthly communication appropriate to your child. We are sorry for any inconvenience. Should you have no access to on-line communication, please stop by the school office to pick up a printed copy of the newsletter.
