## **ANNUAL ASBESTOS MANAGEMENT PLAN PUBLIC NOTICE**

It has been determined by the Illinois Department of Public Health and the Federal Environmental Protection Agency that asbestos is a potential health hazard and precautions should be taken to avoid disturbing any asbestos containing materials. Materials containing asbestos have been identified at DuJardin Elementary School and Westfield Middle School. Beginning with the 2020-2021 school year, and at least once each school year thereafter, Bloomington School District 13 shall utilize the standard weekly email newsletter to provide the required annual notification of response actions, post-response action activities, including periodic reinspection and surveillance activities that are planned or in progress, and of the availability for all to review the District's Asbestos Management Plans.

As required, our buildings were initially inspected in 1988 and have been re-inspected every 3 years since then according to the Asbestos Hazard Emergency Response Act. A Management Plan for each building that identifies areas with asbestos is maintained and updated regularly. Visual inspections are also performed by staff every six months as required by the Act. Any evidence of disturbance or change in condition is documented in the Management Plans as required.

The Management Plans are available for public view at the District Offices, 164 S. Euclid Ave., Bloomington, IL. 60108 during regular business hours. Should you wish to review these plans please contact the Asbestos Management Plan LEA Designated Person, Greg Leyden, at 630-671-5316 or by email at [gleyden@sd13.org](mailto:gleyden@sd13.org).

Respectfully submitted,

A cursive signature of Greg Leyden.
