DINOS EVERYWHERE!

Nearly 45 animatronic dinosaurs that are BIGGER and BADDER will be coming to Brookfield Zoo in 2021. DINOS EVERYWHERE! features acres of earth shakers, including the largest—*Argentinosaurus*—that was estimated to measure more than 100 feet in length and weigh up to 110 tons. This summer, zoogoers will be able to search for these amazing life-like animatronics that will be located throughout the park.
