I love spring because it's baseball season. The weather is usually warm. They don't play in the snow. The catchers equipment has a mask because the ball might hit him. The batter has a hard that is called a helmet. Baseball players have special pants so when they slide they don't get hurt.

My Spring Soccer Game

My spring soccer game was going to be fun.  
I started warming up and then I heard the whistle  
Blow."WWWW" and the game was going to start.  
It was off the starting whistle. The other team  
scored right away.  
A while later we scored and then we scored 2 other  
goals. The score was 3-1  
They scored and the half ended. The next half we  
scored again, the game was almost over and they  
scored two quick goals and the game was over! We  
were disappointed that we had let them score. We  
thought we were going to win. The final score was  
4-4. At least we had a fun game.
